SRI VENKATESWARA UNIVERSITY
NAAC A+

exf Education
An EdTech unit of Exafluence Inc. USA

Fast-Track Your Future in Data Science

Diploma Courses

Industry Collaborative Short-Term Courses
by SV University with Exafluence Inc.USA

ISO/IEC 42001:2023 - Artificial Intelligence Management System
Exafluence is ISO/IEC 42001:2023 certified, demonstrating a strong commitment to responsible, secure, and ethical AI management practices.

ISO/IEC 27001:2022 - Information Security Management System
Exafluence Education is ISO/IEC 27001:2022 certified, ensuring the highest standards of information security management to protect critical data.

Industry Collaborative Diploma Courses By SV University with Exafluence Inc.

Sri Venkateswara University (SV University) in Collaboration with EXA FLUENCE Inc., USA, offers a Data Science Programmes designed with a cutting-edge curriculum to equip you with the latest skills in AI, analytics, and data-driven decision-making

Exafleunce Inc.USA : Exafluence Inc., USA, is a leading global technology company specializing in AI, data science, and digital transformation. By enrolling in this program, you gain the advantage of learning from a company that

- Provides industry exposure through real-world case studies
- Offers mentorship
- Bridges the gap between academia & industry learning experience

Who can Benefit ?

All graduates, irrespective of discipline.

Final-year Engineering and Honors students pursuing under SVU and its affiliated colleges.

Final-year students from institutions outside SV University's jurisdiction should be required to submit a valid No Objection Certificate (NOC) from their respective college principals

Admission Process

SVU Data Science Common Entrance Test by Directorate of Admissions, SV University, Tirupati

Selection Process

Admission is granted to the candidates who qualify in the entrance examination, as per the University Directorate of Admissions (DOA).

For More Information www.svudatascience.in

100% Education Loan Through State Bank of India (SBI)

No Processing Fee & No Margins *Terms & Conditions Apply

Placements

100% Placement Assistance for all the Students

Duration	6 Months

Model	Part Time

(After work / office hours)

Mode	Hybrid

Offered by: Sri Venkateswara University (SVU)
In Collaboration With: Leading Industry Partner Exafluence Inc.,

Course Benefits

- Industry-Relevant Curriculum
- Domain Specific Insights
- Capstone Project
- University Certification & Recognition

Course Benefits

- Hands-On Learning Focus : 80% Practical | 20% Theoretical
- Flexible Hybrid Learning Format
- Mentorship by Industry Leaders
- Academic Project & Internsip from Exafluence Inc., USA
- Recorded lectures
- Study resources & notes
- Assignments & quizzes
- Discussion forums
- 24/7 LMS Support

Diploma in Python for AI, ML & Generative AI

Curriculam Brief

Foundations of AI & ML

- Intelligent Agents & Problem-Solving
- Programming with Python & Data Science
- Generative AI
- Deep Learning Essentials
- Machine Learning Algorithms
- Responsible AI & Optimization

Who can Benefit

Working Professionals

Software developers and IT professionals aiming to transition into AI/ML roles

Data analysts or engineers looking to upskill in Machine Learning, Deep Learning, and Generative AI

Professionals interested in working with LLMs, ChatGPT, and AI-driven applications

Individuals preparing for careers in Data Science, AI, or Software Development

Those looking to boost their resumes with job-ready AI skills and certifications

Diploma in Data Visualization with AI, ML & Generative AI

Python

- Python Programming Essentials and Control Structures
- Core Python and OOPS
- Foundations of Statistics and Probability for Data Analysis
- Data Handling with NumPy and Pandas
- Data Visualization using Matplotlib and Seaborn
- Overview of machine learning and related visualisations

Visualization

- Foundations of Data Visualization and Excel
- SQL and Relational Database Design for Data Analytics
- Visual Analytics with Tableau
- Business Intelligence with Power BI and Data Modeling
- Advanced Data Visualization Tools
- Overview of generative AI and visualisations

Who Should Benefit ?

Fresh graduates aiming for roles in Data Analytics, Business Intelligence, or Research

Learners looking to add practical data visualization skills to their resumes

Working Professionals

Data analysts and junior data scientists wanting to enhance their storytelling with visual tools

Business analysts, project managers, and marketing professionals who need to communicate insights visually

IT and software professionals transitioning to data-focused roles

Diploma in Cloud Technologies

Curriculam Brief

- Foundations of Cloud Infrastructure
- Cloud Computing Essentials
- AWS Core Infrastructure
- GCP Fundamental Services
- Azure Essential Architecture
- Multi-Cloud Automation
- Advanced Cloud Applications and Optimization
- AWS Advanced Applications
- GCP Cutting-Edge Solutions
- Azure Next-Gen Technologies
- Multi-Cloud Machine learning and Generative AI
- Cloud Optimization and Resilience

Who can Benefit ?

Individuals looking to build career-ready cloud skills in AWS, GCP, and Azure

Learners preparing for cloud certification exams (e.g., AWS Certified Solutions Architect, Azure Fundamentals, Google Associate Cloud Engineer)

Working Professionals

IT Administrators, DevOps Engineers, and System Engineers wanting to upskill in multi-cloud environments

Software developers seeking to build and deploy cloud-native applications

Data analysts or ML engineers aiming to leverage cloud for AI/ML workloads

Who can Benefit ?

Professionals from other IT roles (testing, support, BPO) transitioning into high-demand cloud engineering and DevOps careers
