SRI VENKATESWARA UNIVERSITY
NAAC A+

exf Education
An EdTech unit of Exafluence Inc. USA

Post Graduate Diploma In Data Science with AI, ML & Generative AI

Graduates & Working Professionals

Transform Your Future

SV University Industry Collaborative Data Science Programmes with Exafluence Inc.USA

About S.V.University

Sri Venkateswara University (SV University) in Collaboration with **EXA FLUENCE** Inc., USA, offers a Data Science Programmes designed with a cutting-edge curriculum.

About Exafluence Inc.

Exafluence Inc., USA, is a leading global technology company specializing in AI, data science, and digital transformation. Learners will gain the advantage of learning from the industry that :

- Provides industry exposure through real-world case studies
- Offers mentorship
- Bridges the gap between academia & industry learning experience

Eligibility

Engineering Graduates: All Engineering graduates, irrespective of specialization are eligible.

Non-Engineering Graduates: Graduates from other disciplines are eligible, provided they have a minimum of one year experience.

Admission Process

SVU Data Science Common Entrance Test by
Directorate of Admissions, SV University, Tirupati

Selection Process

Admission is granted to the candidates who qualify in the entrance examination, as per the University Directorate of Admissions (DOA).

100% Education Loan Through State Bank of India (SBI)
No Processing Fee & No Margins *Terms & Conditions Apply

Placements
100% Placement Assistance for all the Students

Programme Highlights

Duration	12 Months (1 Year)	Mode	Part Time	Delivery	Hybrid

- **Part-Time & Hybrid**
- **Industry-Aligned Curriculum**
- **Hands-On Learning**
- **State University Certification**

80% Practical Learning I 20% Theoretical Foundation

A balanced, hands-on approach designed to ensure industry readiness.

Mentorship by Industry Experts

Learn from professionals at Exafluence and industry associates who bring real-world experience into the classroom.

Progressive Learning Model

The curriculum builds systematically from core concepts to specialized knowledge, ensuring solid comprehension at each stage.

Flexible Hybrid Delivery

Attend live online sessions led by experienced instructors, with in-person for deeper engagement and collaboration.

Learning Management System (LMS) Access

24/7 access to course materials, lecture videos, assignments, and additional study resources.

Capstone Project – Real-World Experience

Students engage in a Capstone Project that simulates real-world business challenges. Under expert mentorship, they apply analytical tools, machine learning techniques, and domain knowledge to deliver practical solutions—preparing them for immediate contribution in professional environments.

Who Can Benefit

Working Professionals	Upskill to transition into roles like Data Analyst, Data Scientist, or ML Engineer.
Recent Graduates	Fast-track your career in data with practical, industry-focused learning.
Software Developers & IT Professionals	Add data science, machine learning, and AI to your skill set.
Academic Credits	Completion of PG Diploma in Data Science the student can attain Academic Credits which can be used for Higher Education and it is recognized Internationally.
Business Analysts & Managers	Learn how to make data-driven decisions and automate insights.
Domain Experts (Finance, Healthcare, Retail, etc.)	Combine your industry expertise with data tools for best results
Freelancers & Consultants	Offer advanced analytics and AI services to clients across domains.
Career Switchers	Focus into one of the most in-demand tech fields with guided mentorship.

Syllabus Overview

Statistical Techniques for Data Science

- Probability Distributions
- Sampling Distributions
- Statistical Estimation
- Testing of Hypothesis
- Parametric and Non parametric Tests

PYTHON Programming

- Introduction To Python
- Python Program Flow Control
- Python Functions, Modules And Packages
- Python String, List And Dictionary Manipulations
- Python File Operation

Fundamentals of Machine Learning

- Introduction
- Supervised Learning
- Artificial Neural Networks
- Bayesian Learning
- Introduction to Deep Learning

Big Data Analytics

- Introduction to Big Data
- Big Data Analysis
- NoSQL databases
- Hadoop
- Understanding MapReduce

ISO/IEC 42001:2023 - Artificial Intelligence Management System

Exafluence is ISO/IEC 42001:2023 certified, demonstrating a strong commitment to responsible, secure, and ethical AI management practices.

ISO/IEC 27001:2022 - Information Security Management System

Exafluence Education is ISO/IEC 27001:2022 certified, ensuring the highest standards of information security management to protect critical data.
